RE: Kimberly M. Carmell Letter of Recommendation

To Whom It May Concern:

Kimberly M. Carmell was employed by Florida Weekly for approximately 4 years. She reported directly to me as a Production Coordinator/Designer which included managing 4 weekly newspapers. Each week her responsibilities included designing ads, editorial pages, ad trafficking of over 500 ads, creating the page templates per all of our editors requests and creating the templates for all 4 editions.

Additionally Kimberly has always fulfilled her job requirements to the highest quality. She is a person that understands commitment and takes her responsibilities seriously. She is able to manage multiple projects at once and succeeded without my supervision.

Kimberly would be a valuable asset to any organization. I encourage you to contact me directly if you have any questions you would like to discuss.
